

Are you open for a new challenge? We are looking for you as

Design Engineer EFZ (f/m) 80%-100%

Our offer

- challenging and varied design work
- modern infrastructure and working tools
- space for maneuver, space for own initiative
- development potential
- a small and powerful team

Your tasks

- Designing and drawing of individual parts and assemblies
- Creation of technical documents such as layout, schematic, parts lists, etc.
- Completing machine documentations
- Procurement of components, order processing
- Support project management, assembly and sales

You are

- EFZ design engineer
- experienced on 3D-CAD software and MS-Office
- reliable, accurate, efficient and flexible
- technically versed and interested in mechanical constructions
- motivated and committed

Do you feel addressed? Then we look forward to your call or your application documents.
